

Internet Use Policy

In the spirit of the mission of the Library and Eastern Oregon University (EOU), the University's Acceptable Use Policy and the American Library Association Library Bill of Rights, all library materials and services are available to campus and local community members. Priority of use will be given to EOU students, faculty and staff. Community patrons can use our networked resources to access our library catalog, subscription research databases, and other information resources. The community cannot use EOU computers for internet access or email purposes. These public library services are available at La Grande Public Library.

The computers are for scholarly research purpose. Any other use may result in the loss of access privileges or restricted library use. Restriction may be placed on users, if others are queued for access. The purpose for this is to ensure access to the largest number of library users.
